Daron.....Due to the priorities of the Tower GVH reclamation, the Crandall iron treatment situation, the Tower monitoring well, the East Mountain reclamation, the Wildcat Division Order, and the West Ridge stream cleanup project, I have not been able to get the Tower mid-term review deficiencies (task 3276) submitted. As explained in an earlier email, we have been concentrating on the field work part of the deficiencies rather than the paperwork part, and indeed are on top of all the requisite field work. I hereby request an extension to get the paperwork submitted. Thanks

Dave
